## BIOGRAPHY

---

I am a first-year PHD student at MMLab, CUHK. Before Joining CUHK, I received my bachelor degree from University of Chinese Academy of Sciences. During my undergraduate period, I conducted some preliminary computer vision related research supervised by Dr. Jie Zhang and Prof. Shiguang Shan. Afterwards, I turned to research on distributed DNN training advised by Prof. Dahua Lin. My research interests lie in the area of MLSys. Currently, I am working on topics related to automatic parallel training of DNN.

## EDUCATION

---

- The Chinese University of hong Kong Hong Kong
  - PHD student in MMLab, Department of Information Engineering. Sep 2021-Jul 2025
  - Supervisor: Dahua Lin.
- University of Chinese Academy of Sciences Beijing, China
  - Bachelor degree in Computer Science and Technology. Sep 2016-Jul 2020
  - GPA: 3.93/4.00 (rank: 1/69)

## RESEARCH AND PROJECT EXPERIENCE

---

- **Auto-Parallel Training** at MMLab, CUHK Sep 2020-present
  - Supervisor: Shengen Yan, Dahua Lin
  - Exploring a general method to automatically parallel DNN training on a given cluster. Currently, I am working on an evaluation system to simulate the performance of different parallel strategy, which we believe can advance the research on optimization algorithms of parallel strategy.
- **Large Scale Distributed Training** at SenseTime Research Jul 2019-Jul 2020
  - Supervisor: Xingcheng Zhang, Dahua Lin
  - Optimizing large scale data parallel training performance. With sparse communication and system optimization, We train alexnet in 1 minute on a 1000 V100 cluster with parrots.
  - Exploring large NLP model training techniques.
- **Face Anti-Spoofing** at VIPL, Institute of Computing Technology Mar 2019-Jun 2019
  - Supervisor: Jie Zhang, Shiguang Shan
  - I combine face depth maps and rppg signals which are recovered from face pictures to detect spoofing faces.

## AWARDS AND HONORS

---

- First-class Academic Scholarship, University of Chinese Academy of Sciences (top 5%) 2017, 2018
- Tang Lixin Scholarship 2019
- Outstanding Graduate of University of Chinese Academy of Sciences 2020
- Outstanding Graduate of Beijing 2020
